

# THE WATERFORD TIMES

**9<sup>th</sup> Edition**

**March 2013**

I trust that all our readers are well into the swing of 2013. Can you believe it is March already?! We have had a busy time here at Waterford with new foals been born, and horses departing to their new homes.

I am happy to say that I, Kim Schwikkard, am officially now known as Mrs Fraser... My wedding day has come and gone and was spectacular.

## FOALS 2013

*A Percheron filly out of the stallion Gentle Giant Considerate. The dam, Gentle Giant Beautiful, lives up to her name and is by far my most favourite Percheron mare*

## VETERINARY MATTERS

We gelded a number of colts this last week. It is amazing to see how quickly they recover from the procedure. Within half an hour the boys were up and grazing like they hadn't lost anything.... I waited for a day or two to inform them that their manly hood had been taken away from them. Let's just say that they physically recovered quickly but I doubt their ego will be as quick to recover.

HAPPY HOMES

We are always thrilled to hear how our horses are doing at their new homes.

*Waterford Grandslam*

*Waterford Titan*

*Gentle Giant Nuclear- Just arrived in Zimbabwe*

### *Waterford Bridge*

*Congrats to the Fletchers on the purchase of Waterford Bridge. Michael bought Bridge as a surprise gift for his wife. Michael, there are going to be many women out there that are going to want you to train their husbands....WOW what a present!*

## HORSE OF THE MONTH

This month our feature horse is Coco-Cola. This 9 year old stallion is a red and white Shire cross Paint.

Having a fascination for horses of various colours we put together a breeding programme whereby we have blended our draft horses together with horses of colour. We are now producing a variety of paint horses that are exceptional in size, colour and character. These are similar to our Warmbloods and are ideal as multi-purpose sports horses.

Till next month...
